

PRINCIPLES:

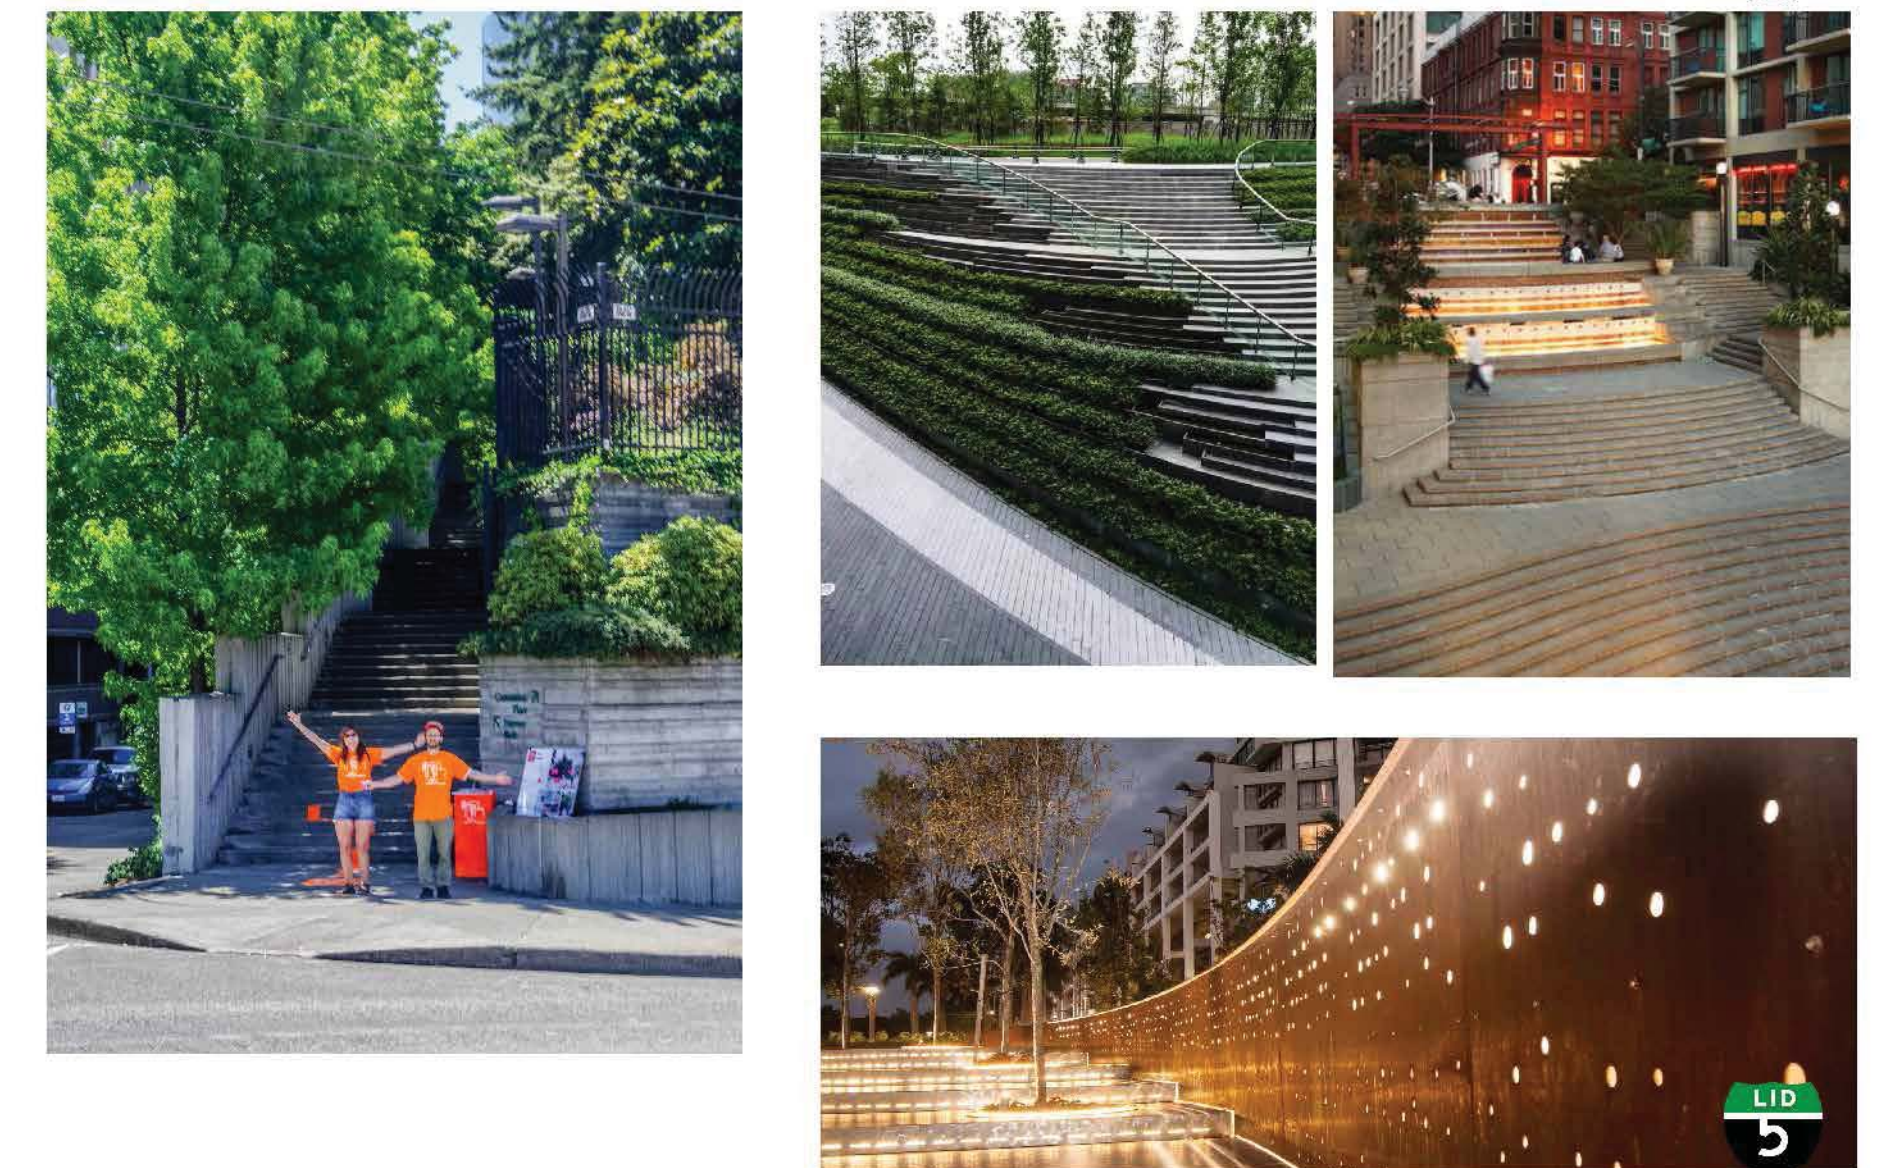

1. Maintain the integrity of Freeway Park and enhance with new features that connect the park to the city while opening and articulating the edges;
2. Develop a layer plan (preservation, recreation, ecology) that is program driven;
3. Using the design of Freeway Park as inspiration, bring the mountains and the water into the city by extending the concept into the new park through an erosion of form;
4. Create an inclusive park that addresses accessibility issues in Freeway Park and the new lid.

CHARACTER AND MOVEMENT

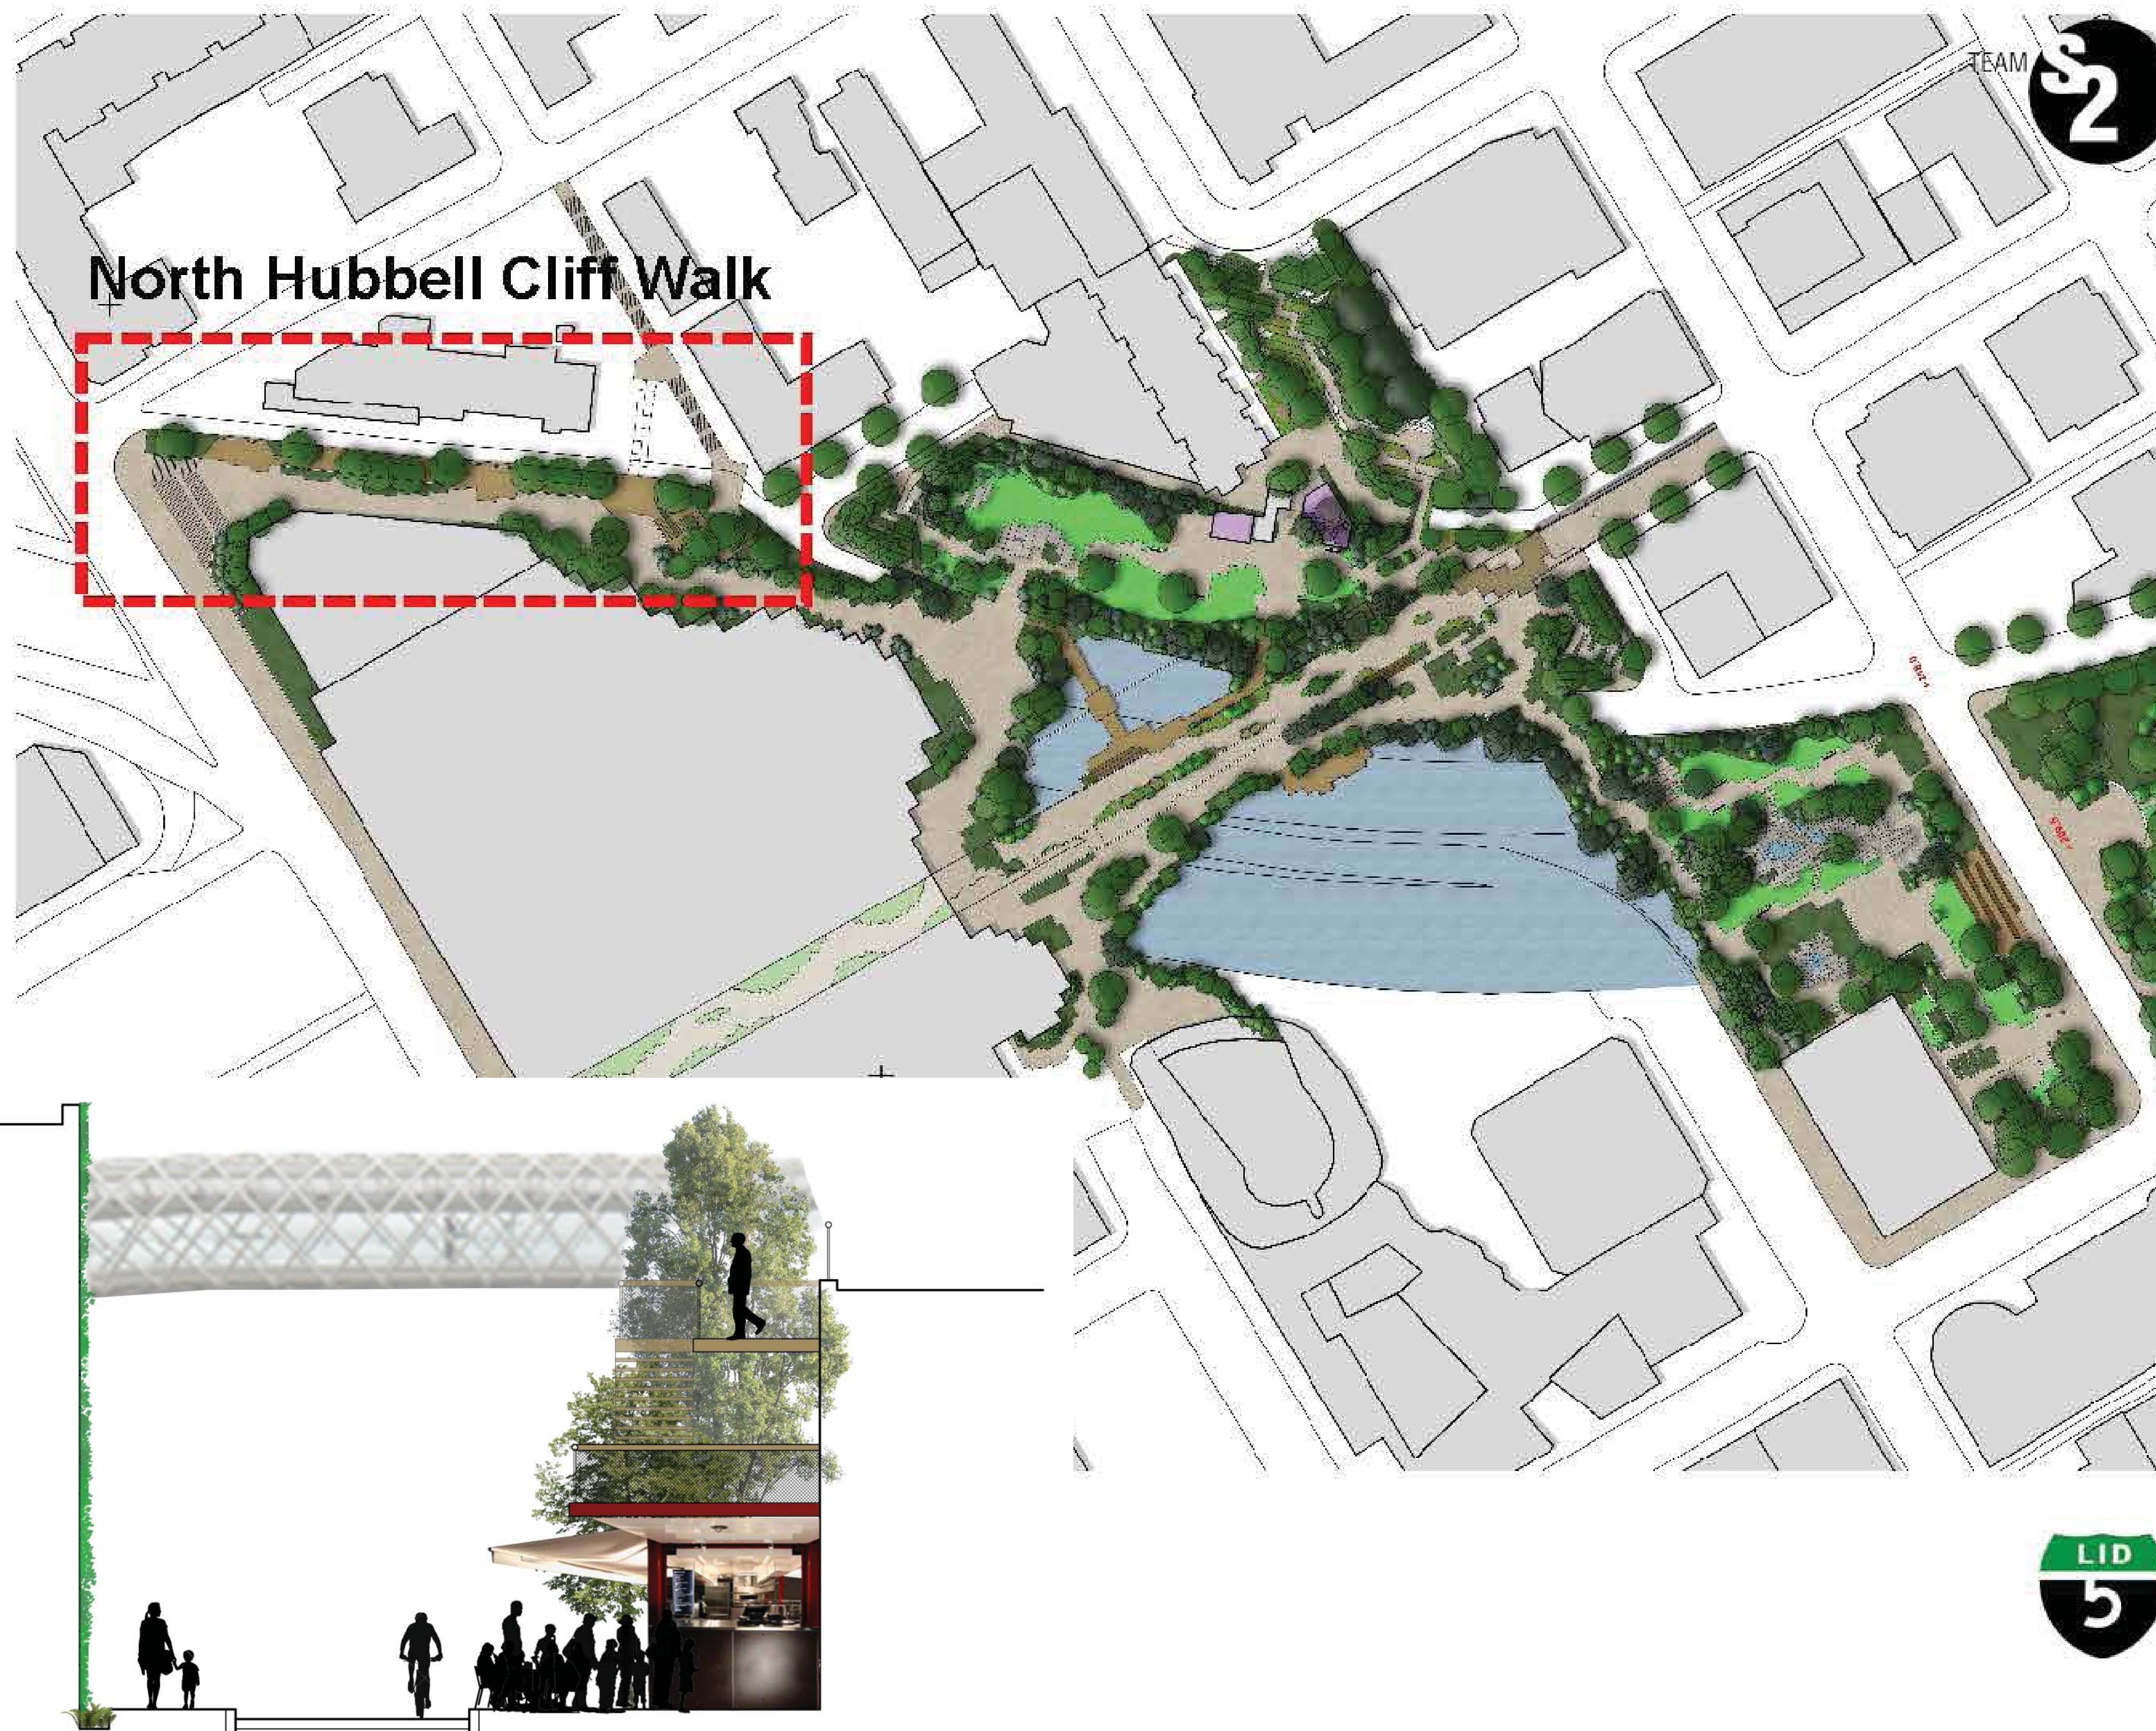

Pike & Hubbell Gateway

North Hubbell Cliff Walk – Food Street

North Hubbell Cliff Walk

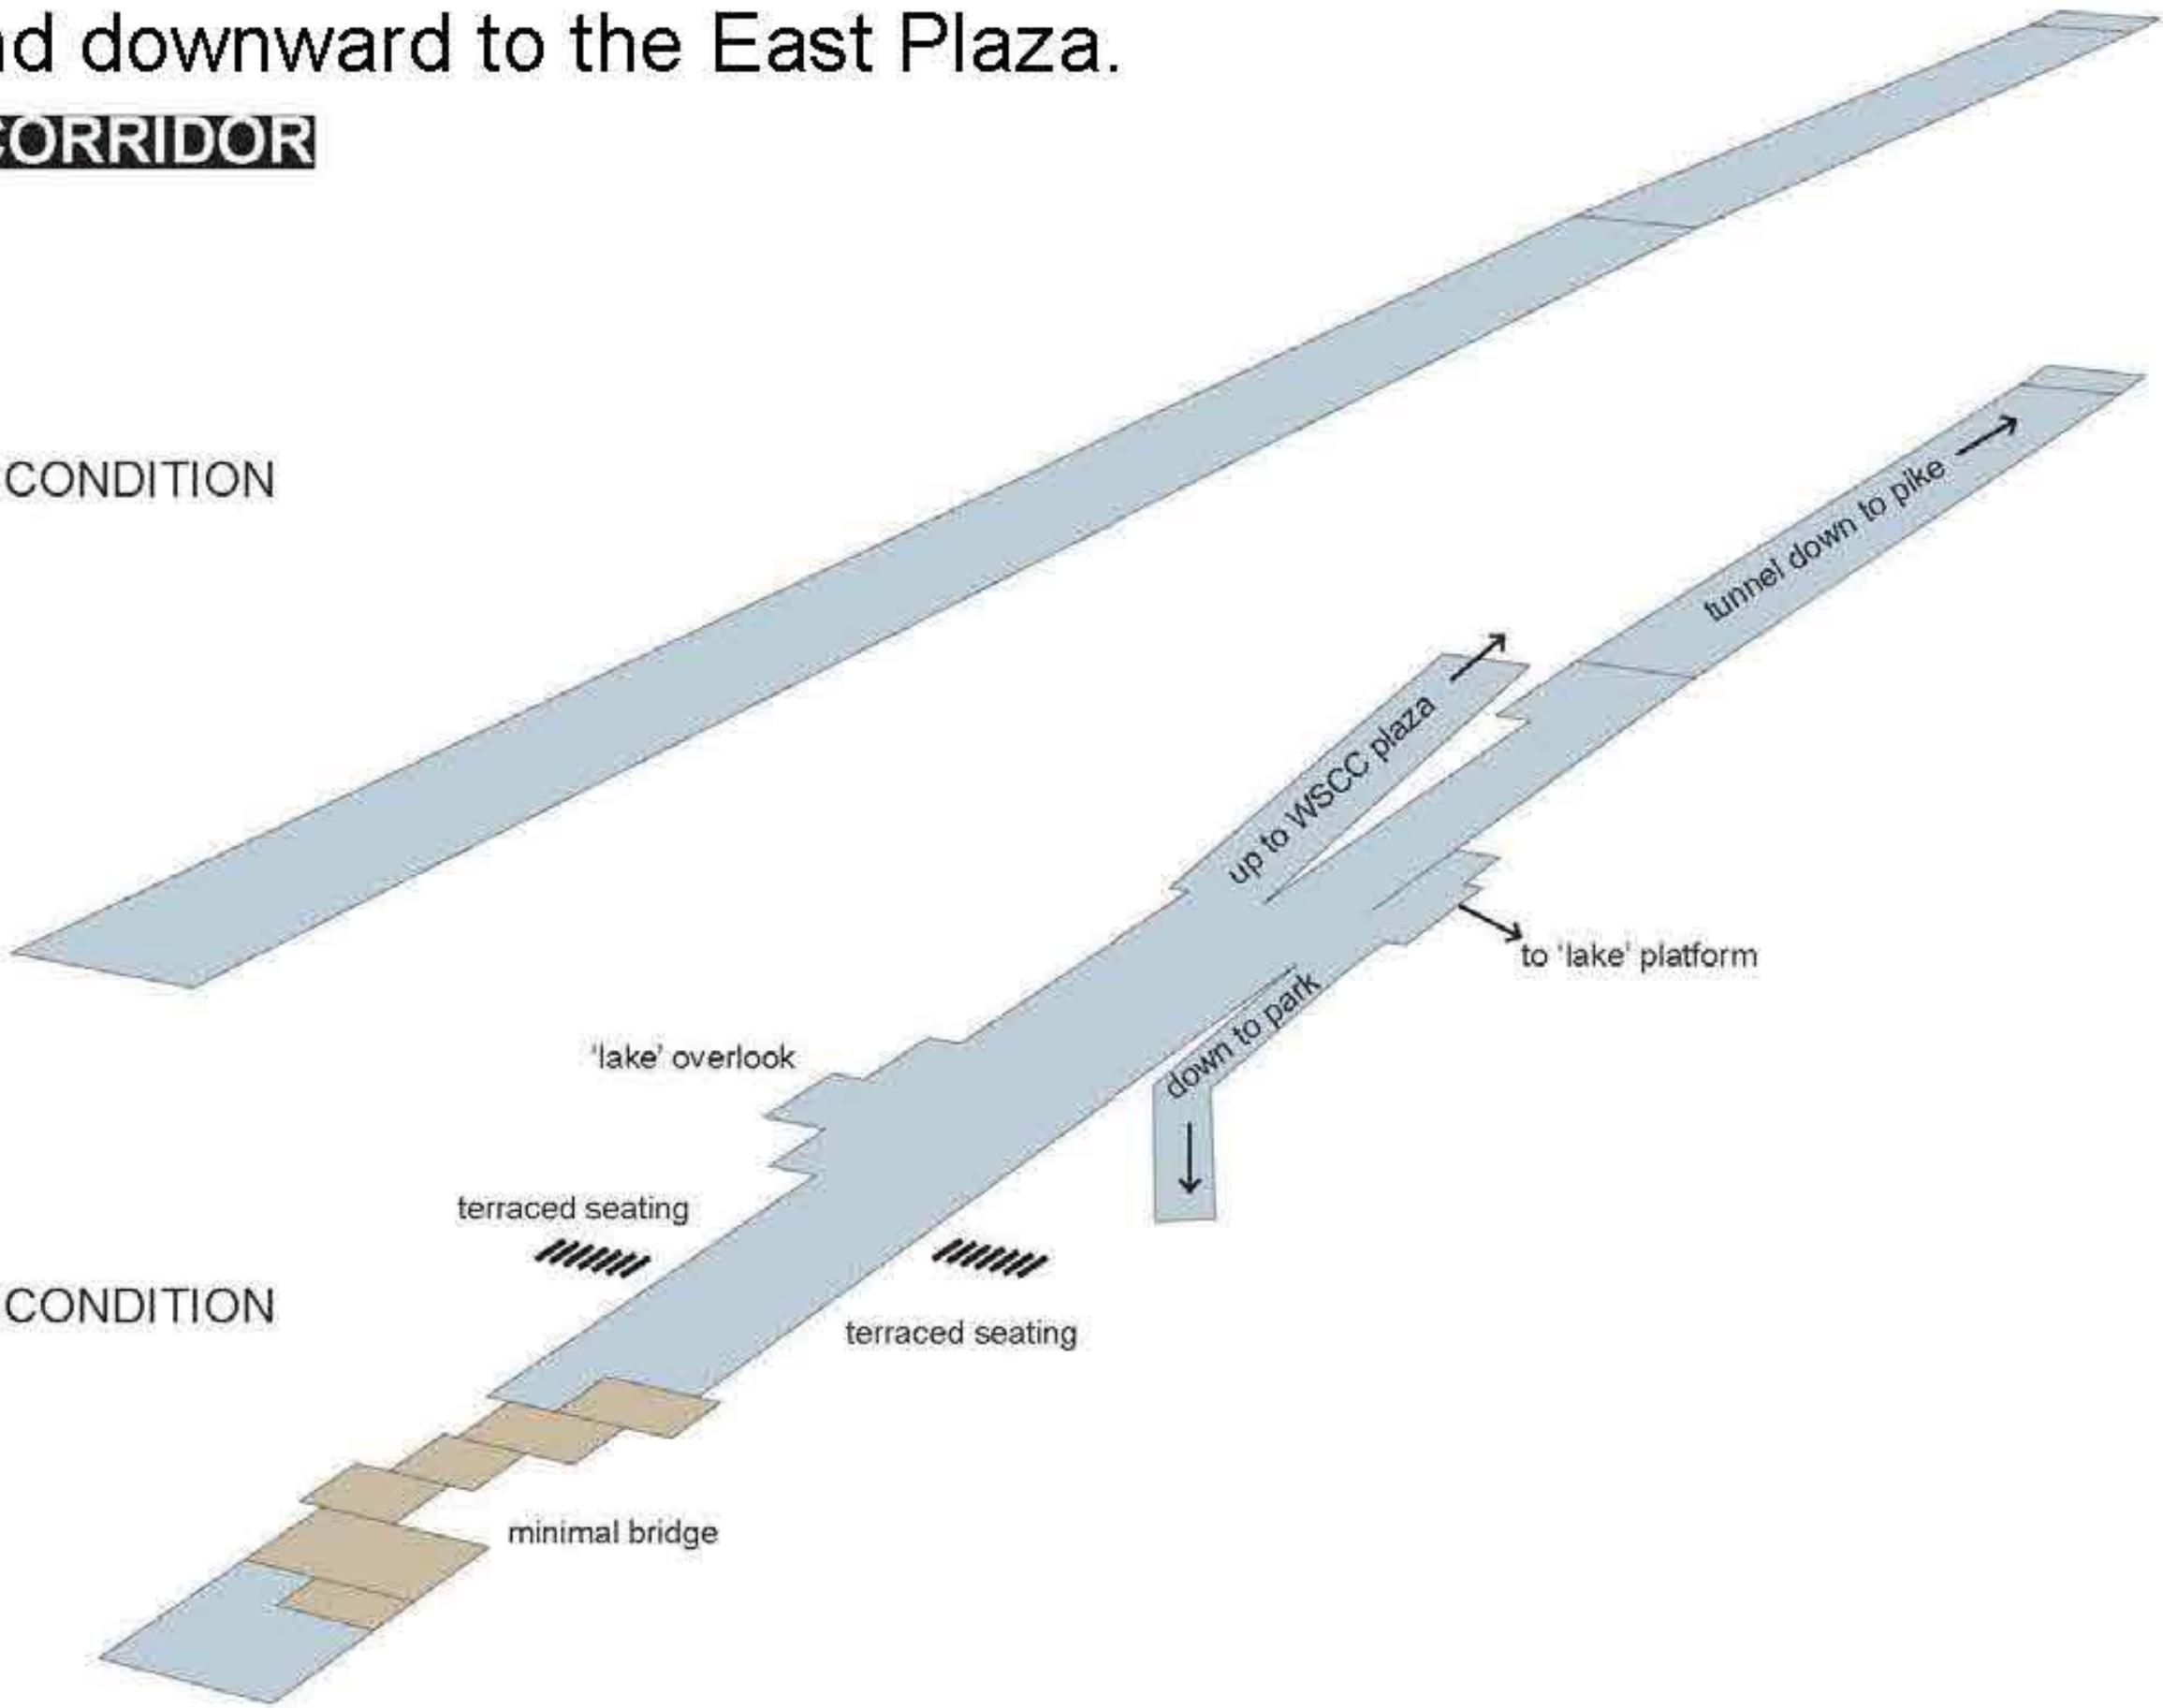

8th Avenue Spine

Pedestrians and cyclists access the park through the WSCC from Pike. The edges fold to create ramps up to the WSCC Plaza and downward to the East Plaza.

8th Ave CORRIDOR
